Proddatur, India | +91-9392426719 | smdtarik1244@gmail.com | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Aspiring Software Engineer and ECE graduate (CGPA: 8.9) with a strong foundation in **MERN stack**, **Data Structures**, and programming. Proficient in **C++**, **Python**, and **JavaScript**, with hands-on experience building web applications and APIs. Currently working as a **Software Development Intern**, contributing to a clinical site management system using **React**, **GraphQL**, **Node.js**, and **SQL**. Interested in developing scalable software solutions and continuously improving problem-solving skills.

EDUCATION

Central University of Karnataka

B.Tech in Electronics and Communication Engineering (CGPA: 8.9/10.0)

Kalaburgai, India

Nov. 2021 – May 2025

TECHNICAL SKILLS

Languages: C++17, Python 3, JavaScript (ES6+), SQL, C, HTML5, CSS3

Web Technologies: React.js, Node.js, Express.js, MongoDB, MERN Stack, REST APIs, EJS

Developer Tools: Git, GitHub, VS Code, Postman, Linux, Streamlit, Jupyter Notebook

Libraries/ML: scikit-learn, OpenCV, Pandas, NumPy, Matplotlib, Statistical Analysis

Hardware/Engineering: Embedded C, MATLAB, IoT Architecture, STM32, RTOS, HFSS

RELEVANT COURSEWORK

- | | | |
|--------------------------------|---------------------|----------------------------|
| • Data Structures & Algorithms | • Operating Systems | • Computer Networks |
| • Machine Learning | • Deep Learning | • Digital Image Processing |
| • IOT | • Embedded Systems | • Robotics & Automation |

EXPERIENCE

Software Development Intern

Feb 2026 – Present

Emmes Group

Remote

- Developing a **clinical site management web application** to centralize study, site, and investigator data.
- Built scalable frontend using **React.js** and **Tailwind CSS**, improving UI consistency and responsiveness.
- Designed and integrated **GraphQL APIs** with **Node.js**, enabling efficient and flexible data querying.
- Worked with **SQL-based databases** to manage structured clinical data with optimized queries.
- Collaborated with **cross-functional interns** using Git workflows, improving team productivity and feature delivery.

Machine Learning Intern

May 2024 – July 2024

IIT Dharwad

Dharwad, India

- Curated a dataset of **100+ high-resolution videos**, converting them into over **50,000 frames** for optical flow analysis.
- Achieved **95%+ accuracy** in calculating real-world discharge values using deep learning models.
- Collaborated with **10+ co-interns** and built **Streamlit tools** to automate processing workflows.

Data Analytics Intern

April 2023 – August 2023

Traninity

Remote

- Delivered **8+ analytics projects** including IMDB trends, processing **5,000+ rows of data**.
- Automated data cleaning and visualization in **Excel**, improving reporting efficiency by **25%**.
- Converted raw data into actionable insights across **multiple domains**.

PROJECTS

Resume Screening System | *Python, NLP, Streamlit*

- Engineered an NLP tool maintaining **98% model accuracy** in skill categorization and candidate ranking.
- Standardized shortlisting via rule-based scoring, reducing manual resume screening time by over **70%**.

Antenna Design Optimization | *Python, scikit-learn, HFSS*

- Achieved **96% accuracy** in predicting optimal antenna gain by training models on a dataset of **5,000+ samples**.
- Reduced manual design simulation time by **40%** through automated mathematical parameter evaluation.

Image to Anime Conversion | *MATLAB, Image Processing, Digital Filtering*

- Engineered a multi-stage image processing pipeline in **MATLAB** using bilateral filtering and edge detection to stylize real-world photos into high-fidelity animations, achieving a **30% reduction** in computational overhead.

CERTIFICATIONS & ACHIEVEMENTS

Full Stack Web Development (Delta) – Apna College (Certified MERN Developer)

Machine Learning Fundamentals, Linear Algebra – NPTEL Certified
